
2010 Guangzhou asian games opening ceremony

Glories on Asian Games co-created by Golden sea! Our Golden sea lightings--V1510TB-ER moving head and LED OVAL48D outdoor lighting has been involved in this splendid and spectacular opening ceremony, the quantity is more than 1,400 pcs !

On the opening ceremony, the whole HaiXinSha island was glaring with lighting. At that time, It not only showed the Oriental charm, but also telling a legend happened in the south of the Five Ridges of China. The whole performance site is blanketed by the baby blue and glistening water, numerous lighting beams were laying out when Golden sea's nearly 100 pcs of V1510TB-ER beam head were dancing with the music. The equipments were installed in 90 meters high air and then the lights interweaved into various flower shapes according to the demand of performances, which made the whole scene more impressive and illusional! At the same time, our V1510TB-ER need to guide the performers to the right position from 90 meters high position, the high accuracy of our V1510TB-ER was demonstrated perfectly in this opening ceremony! Nearly one thousand OVAL48D, made of 48x3w LEDs , added ever-changing colours to the ceremony and painted the whole performace site, especially the stage and the four huge sails, gorgeous and magnificent! At this moment, the whole HaiXinSha island seemed a large steamer steering into estuary and being ready to set sail. And nearly thousands of audience in HaiXinSha island, embracing by gorgeous light, have enjoyed a amazing, innovative and animative Guangzhou 16th Asian Games' opening ceremony!
