

Golden Sea Illuminated

"Singer" is a music competition program launched by Hunan Satellite TV. In each episode, professional singers are invited to have singing competitions. On April 24, the final of "the year of the singer" officially ended. After the fierce battle of 12 episodes, Hua Chenyu finally won as the annual song king, with Yuan Yawei winning the second place, Xiao Jingteng the third place and Jike Junyi the fourth place.

This musical event is not only the event for touching "sound", but also for moving "light", Golden Sea 's V3000P (PROFILE) and V2000W (WASH) performed silently for this event to add beauty of light and color to the show.

Hunan TV innovatively applied the "cloud recording" mode in the show in the context of COVID-19 outbreak. Likewise, Golden Sea will also take this opportunity to actively explore possibility to create a new mode of integrated development of culture and technology.
